

## Disclaimer

By using any of the information or services provided by Leading Edge Trading Co. or [www.leadingedgetrading.com](http://www.leadingedgetrading.com) on its web site, in any of its chat room(s) or in any training rooms, you agree that the use of any Services, information, education, training or guidance is done entirely at your own risk and you further agree to be bound by the terms and provisions of this Disclaimer. Neither Leading Edge Trading Co. nor [www.leadingedgetrading.com](http://www.leadingedgetrading.com) (hereinafter collectively referred to as "Leading Edge") is a registered investment advisor or broker dealer and therefore you understand and agree that Leading Edge is not providing any trading or investment advice in any way whatsoever nor is Leading Edge making any recommendations for anyone to buy, sell or sell short any trading or investment vehicle or security of any kind including any stock, bond, commodity, futures contract or option nor providing any investment, retirement, estate, tax or legal advice in any way whatsoever. You fully understand and agree that Leading Edge is engaged in the business of providing trader education and demonstrates its training abilities through active, live market analysis and demonstrations and posting depictions of anticipated market moves and targets in various time frames from time to time for its students and potential clients to evaluate the possible benefits for future personal use which may be achieved through enrolling as a student with Leading Edge and being trained in the methods used and taught by Leading Edge to its students. Leading Edge strictly prohibits, the use any of the information or market related data posted either on the web site or in any of the chat rooms for actual live trading by any guest (Free Trail Member) or by any monthly subscriber. In the event you breach this provision, without our knowledge or consent, you assume the entire risk and cost of any such trading or investing and you are solely responsible for any and all gains and losses, financial, emotional or otherwise experienced, suffered or incurred by you. All transactions you choose to engage in with or without seeking advice from a licensed and qualified financial advisor or entity are conducted at your sole discretion and are your sole responsibility. Any information, education, opinion, advice, guidance, direction or offer posted by any entity logged onto the web site or in any of the chat rooms or the training room is to be construed as public conversation only. Leading Edge makes no warranties that trading methods or systems presented, discussed, shown or taught either on their web site or in any chat room, in the training room or over the telephone will result in profits or losses. Leading Edge gives no assurances regarding the accuracy, truth, timeliness, reliability or good faith of any material or information posted. The information is for educational or sales purposes only and is not intended to provide trading, investment, tax or legal advice, which you should obtain from your professional advisor prior to making any trade or investment of the type discussed or posted on the web site, in any of the chat or training rooms or over the telephone with one of our employees. The information does not constitute a solicitation by Leading Edge, its' officers, directors or employees or any other person, affiliate or entity for the purchase or sale of any security, commodity, bond, futures contract or option of any kind.

You understand and agree that there is a very high degree of risk involved in any market, trading or investing activity and fully understand and accept that people can and often do lose money. Past performance results of any individual trades or trader published, posted, discussed or taught on the web site or in any of the chat rooms or the training room or over the telephone are not indicative of future returns using that same method of trading nor by that same nor any other trader, including you, in the future and similar returns may not be realized by you in the future.

Performance results have many inherent limitations, some of which are described below. No representation is being made that any account or individual trader will or is likely to achieve profits or losses similar to those shown, described, posted, taught or discussed in the chat rooms, training rooms or over the telephone. In fact, there are frequently sharp

differences between individual trading results between other traders exposed to the same information or posts and the actual trades taught or used as an example in the postings or teachings in the chat rooms, the training room or over the telephone. In addition, hypothetical trading does not involve financial risk and no hypothetical trading can completely account for the impact of financial risk in actual trading, for example, the ability to withstand losses or adhere to a particular trading methodology, strategy or program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading method, strategy or program which cannot be fully accounted for, all of which can adversely affect actual trading results.

The methodologies, indicators, strategies and all other features of the Leading Edge chat and training rooms (hereinafter collectively referred to as the "Information") is provided for informational, educational and demonstrational purposes only and should not be construed as investment or trading advice. The analysts, instructors, posters and employees or affiliates of Leading Edge may or may not hold positions in the financial instruments discussed or demonstrated at any given time in the chat or training rooms and the trades taught or trading examples given or used in the chat or training rooms may or may not be actually being traded by Leading Edge or its officers, directors, employees or instructors hence, they are to be considered hypothetical trades. You should not rely solely on the information taught, posted or discussed in the chat or training rooms in making any trade or investment decisions. Rather, you should use the information only as an educational guide and as a starting point for your learning and understanding of the markets and for conducting additional independent research in order to allow you to form your own opinion regarding your own trading or investing.
